

Rapid changes of temperature are hard on the toughest constitution.

The conductor passing from the heated inside of a trolley car to the icy temperature of the platform—the canvasser spending an hour or so in a heated building and then walking against a biting wind—know the difficulty of avoiding cold.

Scott's Emulsion strengthens the body so that it can better withstand the danger of cold from changes of temperature.

It will help you to avoid taking cold.

Do not Crowd The Season

The first warm days of spring bring with them a desire to get out and enjoy the exhilarating air and sunshine. Children that have been housed up all winter are brought out and you wonder where they all came from. The heavy winter clothing is thrown aside and many shed their fannels. Then a cold wave comes and people say that grippe is epidemic. Colds at this season are even more dangerous than in mid-winter, as there is much more danger of pneumonia. Take Chamberlain's Cough Remedy, however, and you will have nothing to fear. It always cures, and we have never known a cold to result in pneumonia where it was used. It is pleasant and safe to take. Children like it. For sale by J. H. Orme the leading druggist in western Ky.

"I was never very hopeful about spelling reform," remarked the cheerless person.

"Yet you advocated it?"
"Yes. But I knew it was a forlorn hope. The reforms most likely to succeed are those that make official vacancies which the reformers can fill."

OLD TIME PUNISHMENTS.

Cold Water Baths Helped to Cure Swearing and Scolding.

To punish a child in such a way that it will see the direct connection between the correction and the fault is one of the precepts of modern education. The judge of the eighteenth century was not worried by such psychological theories, but his decisions often had the grim humor of fitness.

What could be better for the scold than a cooling plunge or for the wife beater than a few lashes on his own back?

A number of tender handed English gallants joined a pioneer expedition to Virginia. The weather was cold and the work hard. When these soft muscled young men were set at chopping trees their hands were sorely blistered by the ax helms. With the cries of pain many oaths were heard.

The president of the company soon put a stop to this swearing by ordering a can of cold water to be poured down the sleeve of the guilty one at every oath he uttered.

In colonial days hog stealing was considered one of the most serious of crimes. At the first offense the thief's ears were slit, at the second his ears were nailed to a pillory, and at the third he suffered death "without benefit of clergy."

Deceitful bakers and careless fish dealers had to "lose their ears," while he who spoke detracting words had his tongue bored by a bodkin.

A Frenchman, traveling in America in 1700, describes the ducking stool as a "pleasant mode" of punishing a scolding woman.

In 1635 Thomas Hartley of Virginia wrote of his witnessing the execution of a ducking stool sentence:

"Day before yesterday at 2 of ye Clock, I saw this punishment given to one Betsey Walker, who by ye violence of her tongue made her house and her neighborhood uncomfortable. They had a machine for ye purpose, yt belongs to ye Parish. It has already been used three times this summer.

"Ye Woman was allowed to go under ye water for ye space of 15 minute. Betsey had a stout stomach and would not yield until she had been under five times. Then she cried piteously. Then they drew back ye Machine, untied ye Ropes and let her walk home a hopefully penitent woman."—Youth's Companion.

BUSINESS PROVERBS.

Not the big earner, but the wise investor, is the future capitalist.

The wise man knows that wealth is not worth getting save for the purpose of using and so gets after it early.

Investment is putting money into chicken farming; speculation is counting the chickens before they are hatched.

The chap who does his work indifferently because he thinks he is above his job thereby proves his unfitness for the job that is above him.

The man who yields to honest persuasion slowly and imperceptibly, as rock to water, may make a loyal investor when won. But he who is quick to lay hold of a good investment makes the most money.

Multitudes of people sleep soundly nights, believing their savings to be protected in the banks, not dreaming that the banks have invested them in business enterprises that the depositors themselves declined to buy shares in because they thought their earnings were too large to be safe.—Cent Per Cent.

Willing to Chance It.

It is reported of the Earl of Mansfield that he once dismissed a servant, but wrote for him a "character," as follows: "The bearer, John —, has served me for three years in the capacity of coachman. He is an able driver and a very sober man. I discharged him because he cheated me. A day or two later the man returned to thank his old master for the help he had afforded him in getting him a new birth. How had the testimonial helped him? The man explained that his new master had observed that ability to drive and sobriety were the qualities he required in a coachman. As for the cheating, his employer had said, 'I'm a Yorkshireman, and I'll be hanged if you cheat me.'"

The English of It.

An English actor of some prominence was dining with some friends in this country. One of them asked him if he had found any American plays that he thought he could use in England. "Oh, yes," he replied, "I have seen one or two that I fawney will be on the other side. In fact, I have entered into negotiations for several. One that appeals to me strongly is a play called 'Ten Evenings in a Public House,' where I shall play John Morgan, and another is named 'Uncle Thomas' Residence,' which has a fine part for me in Marks, the barrister."—Kansas City Star.

Papa's Fault.

Father—I have just heard that that incorrigible son of mine has just married a well known actress. Daughter—Well, you have yourself to blame, father. Father—How do you make that out? Daughter—Haven't you often told him to hitch his wagon to a star?—Young's Magazine.

Bunkoed.

The elephant trumpeted loudly. "What's the trouble?" asked the chimpanzee. "Somebody's worked the shell game on me," replied the pachyderm as he threw away the bag of empty peanut shells which had just been handed to him.

Clears The Complexion.

Citrus Laxative Fruit Syrup stimulates the liver and thoroughly cleanses the system and clears the complexion of pimples and blotches. It is the best laxative for women and children as it is mild and pleasant, and does not gripe or sicken. Citrus is much superior to pills, aperient waters and all ordinary cathartics as it does not irritate the stomach and bowels. J. H. Orme.

The Wise Old Parrot.

"Talk about the instinct of the lower orders! I built a little two-story house for my parrot not long ago, and the very next morning after I put her in it she looked out of the window and greeted me in a very profane fashion."
"Why should she do that?"
"Complaining about the house, I fancy."
"But why should she swear at you?"
"Took me for the janitor, no doubt."

A Valuable Lesson

"Six years ago I learned a valuable lesson," writes John Pleasant, of Magnolia, Ind. "I then began taking Dr. King's New Life Pills, and the longer I take them the better I find them." They please everybody. Guaranteed at Haynes & Taylor, druggist 25c.

It's a pleasure to tell our readers about a Cough Cure like Dr. Shoop's. For years Dr. Shoop has fought against Opium, Chloroform, or other unsafe ingredients commonly found in Cough remedies. Dr. Shoop it seems, has welcomed the Pure Food and Drug Law recently enacted, for he has worked along similar lines for many years. For nearly 20 years Dr. Shoop's Cough Cure containers have had a warning printed on them against Opium and other narcotic poisons. He has thus made it possible for mothers to protect their children by simply insisting on having Dr. Shoop's Cough Cure. Sold by Haynes & Taylor.

Safe, Sure and Speedy.

No external remedy ever yet devised has so fully and unquestionably met these three prime conditions as successful as Alcock's Plasters. They are safe because they contain no deleterious drug and are manufactured upon scientific principals of medicine. They are sure because nothing goes into them except ingredients which are exactly adapted to the purposes for which a plaster is required. They are speedy in their action because their medicinal qualities goes right to their work relieving pain and restoring the natural and healthy performance of functions of muscles, nerves and skin. Alcock's Plasters are the original and genuine porous plasters and like most meritorious articles have been extensively imitated, therefore always make sure and get the genuine Alcock's.

An invention has just been tested for making paper out of rushes. It is claimed that when treated with a suitable chemical solution and subjected to the special process which is the subject of the invention the plant makes a good white paper that can be used for almost all purposes.

Chicago's Postmaster.

Postmaster Russe has an automobile which he is too modest to use. He thought it would be a fine thing in which to ride to and from his office, but when the machine arrived, with its shining paint and brasses, he said it was "too grand" for him, and that he would continue using his horse and buggy until he could get used to the new magnificence. He is still riding in the buggy.

Skim Milk as a Fertilizer.

Skim milk as a fertilizer for crops is interesting many farmers abroad, several of whom declare that astonishing results have come from its use. In the vicinity of one farm a dairy had a lot of skim milk that could not be used. Two farmers took the milk and poured it on their lands as an experiment. One emptied seventy-five cans and another 150. Remarkable results have been obtained. Their grass is now seven times as vigorous as on adjoining fields where the milk was not used, but which were covered with commercial fertilizers.
